1. Getting Started

1.1 System Requirements

Component	Minimum
Desktop Browser	Chrome 100+, Firefox 100+, Safari 16+, Edge 100+
Mobile Browser	Chrome (Android), Safari (iOS 16+), Samsung Internet
Internet	5 Mbps broadband
Desktop Screen	1280 × 720 minimum (1920 × 1080 recommended)

Component	Minimum
Mobile Screen	375px width minimum (iPhone SE and above)
OS	Windows 10+, macOS 12+, Linux, iOS 16+, Android 12+

Mobile Support: The platform is fully responsive. On mobile devices, the sidebar collapses into a slide-out drawer accessible via the hamburger menu. All features including Client Intake, Case Management, Contract Agent, and Document Management are fully functional on mobile.

1.2 Accessing the Platform

Navigate to: `http://localhost:3000` (development) or your assigned production URL.

You will be redirected to the login page automatically.

1.3 Demo Accounts

The platform ships with four pre-configured demo accounts. Select the account that matches your role during the demo.

Account	Role	Email	Capabilities
Atty. Maria Santos	Admin	maria@quanbylegal.com	Full access to all features, user management
Atty. Juan dela Cruz	Lawyer	juan@quanbylegal.com	Case management, document drafting, contract review
Ana Reyes	Paralegal	ana@quanbylegal.com	Case support, document prep, intake processing
Pedro Garcia	Client	pedro@client.com	Client Portal view only

1.4 Switching Demo Accounts

You can switch the active demo account from: - **Settings page** → Demo Account Switcher - **Top navigation bar** → User avatar → Switch Account

The platform uses a secure httpOnly cookie (`ql_demo_user`) to persist your session. No password is required in demo mode.

Production Note: In production, replace mock authentication with a compliant Identity Provider (e.g., Keycloak with TOTP) in accordance with RA 10173 and DICT security standards.

2. Dashboard Overview

The Dashboard is your command center. It provides a real-time summary of your firm's caseload, upcoming deadlines, and recent activity.

2.1 Navigation

The **Sidebar** (left panel) provides primary navigation:

Item	Description
Dashboard	Overview and KPI summary
Cases	Full case list and search
Client Intake	4-step intake wizard
Contract Agent	AI-assisted contract analysis
Documents	File management and PDF generation
e-Notarization	Electronic notarization workflow
Analytics	Charts and performance metrics
Client Portal	Client-facing case view
Settings	Preferences and account configuration

The sidebar collapses to icon-only mode on tablet screens and becomes a slide-out drawer on mobile.

2.2 KPI Summary Cards

The top row displays six key performance indicators with **animated counters** — values count up from zero on load, giving an immediate visual impression of firm activity:

- **Active Cases** — Total cases with ACTIVE status
- **Pending Intake** — Clients awaiting eligibility screening

- **This Week's Hearings** — Scheduled court dates in the next 7 days
- **Overdue Deadlines** — Reglementary deadlines that have passed
- **Documents for Review** — Documents in REVIEW status
- **Win Rate (YTD)** — Percentage of closed cases decided favorably

Each card is **clickable** and navigates directly to the relevant module (e.g., clicking Active Cases opens the filtered case list).

2.3 Case Table

Displays the 10 most recent active cases with: - Case number and title - Case type badge (Civil, Criminal, Labor, etc.) - Status badge with color coding - Assigned lawyer - Next deadline with urgency color coding (red = overdue, orange = ≤7 days)

Click any row to open the full Case Detail view.

2.4 Activity Feed

Chronological log of recent timeline events across all cases: - Case creations and status changes - Lawyer assignments - Hearing schedules - Document filings

2.5 Deadline Calendar

Lists upcoming reglementary deadlines sorted by urgency. Color coding: - **Red** — Overdue or within 3 days - **Orange** — 4–7 days remaining - **Yellow** — 8–14 days remaining - **Gray** — More than 14 days remaining

2.6 Powered by Quanby AI

A "**Powered by Quanby AI**" badge appears at the bottom of every dashboard page, along with the platform version (`v1.0.0 Demo`). This identifies the AI-assisted features (contract analysis, document generation, eligibility scoring) as Quanby-native capabilities.

2.7 Supreme Court Compliance Badge

Displayed in the top-right corner of the dashboard. Confirms the platform operates under: - A.M. No. 19-10-20-SC (Electronic Filing) - RA 10173 Data Privacy Act - NIST SP 800-53 security controls

3. Global Search

3.1 Overview

The **Global Search** feature is accessible from the top navigation bar on all pages. Click the **magnifying glass icon** () to open the search bar, or click the search icon on mobile.

3.2 How to Use Search

1. Click the search icon in the top navigation bar
2. Type your query — results appear **automatically** after a brief debounce (300 ms)
3. Results are grouped into three categories:
4.  **Cases** — Matched case numbers, titles, or client names
5.  **Contracts** — Matched contract titles
6.  **Documents** — Matched document titles
7. Hover over any result to see a **tooltip** with additional details (e.g., full case number and title)
8. Click a result to navigate directly to that record
9. Press **Escape** or click the **×** button to close the search bar

3.3 Search Scope

Category	Searchable Fields
Cases	Case number, case title, client name, opposing party
Contracts	Contract title, parties
Documents	Document title, document name

Note: Search is performed live against the database. Results are limited to 5 items per category for performance. Use the dedicated **Cases**, **Contracts**, or **Documents** module for advanced filtering.

3.4 Keyboard Shortcut

Press **Escape** at any time to close the search bar without navigating away.

4. Client Intake

The Intake module implements a structured 4-step wizard for onboarding new clients and assessing eligibility for legal aid (PAO eligibility screening).

4.1 Starting a New Intake

Navigate to **Client Intake** from the sidebar, then click **New Intake**.

4.2 Step 1 — Personal Information

Required fields: - First Name, Last Name (Middle Name optional) - Date of Birth - Civil Status - Gender - Contact Number - Email Address

Address fields (for venue determination): - Street Address, Barangay, Municipality/City, Province, Region

Government IDs (optional but recommended for identity verification): - TIN, SSS, PhilHealth, Pag-IBIG, Voter's ID, Passport

4.3 Step 2 — Case Information

- **Case Type** — Select from: Civil, Criminal, Labor, Administrative, Family, Commercial, Special Proceedings, Election, Tax, Environmental
- **Brief Description** — Narrative description of the legal problem
- **Date of Incident** — For computing prescription periods
- **Relief Sought** — What the client is asking the court to grant
- **Opposing Party** — Name and basic information of adverse party

The system will automatically display applicable prescription periods based on case type.

4.4 Step 3 — Eligibility Screening (PAO Criteria)

The platform computes a PAO eligibility score based on:

Factor	Weight
Monthly Household Income	40%
Employment Status	20%
Estimated Asset Value	20%

Factor	Weight
Number of Dependents	10%
Nature of Case	10%

Income threshold: **PHP 18,000/month** (current PAO guideline).

Eligibility results: - **Score ≥ 60** → Eligible for legal aid - **Score 40–59** → Requires review by supervising attorney - **Score < 40** → Ineligible; may be referred to private counsel

4.5 Step 4 — Review and Submit

Review all entered information before submission. The system will: 1. Create a Client record in the database 2. Create a new Case with status **INTAKE** 3. Add an initial timeline entry 4. Generate a notification for the supervising attorney

After submission, you are redirected to the Case Detail page for the newly created case.

5. Case Management

5.1 Case List

Cases → Lists all cases with filtering, sorting, and search.

Filter options: - Case Type (Civil, Criminal, Labor, etc.) - Status (Active, On Hold, Awaiting Hearing, etc.) - Priority (Urgent, High, Medium, Low) - Assigned Lawyer - Date Range

Sort options: Case Number, Date Filed, Next Deadline, Priority

Search: Full-text search across case number, title, client name, opposing party.

5.2 Creating a New Case

Cases → **New Case** button (or from Intake completion).

Required fields: - Case Title - Case Type - Client (select from existing clients or create inline) - Priority Level

Optional but recommended: - Court Level and Branch - Court Docket Number - Date of Filing - Reglementary Deadline

5.3 Case Detail — 5-Tab View

Click any case to open the detail view with five tabs:

Tab 1: Overview

- Case header with title, number, type, status, priority
- Client information panel
- Court information (level, branch, docket, judge)
- Key dates (filing, next hearing, deadline)
- Case description and cause of action

Status Management: Use the status dropdown to advance the case through its lifecycle: INTAKE → PENDING_ASSIGNMENT → ACTIVE → AWAITING_HEARING → AWAITING_DECISION → CLOSED_WON / CLOSED_LOST / CLOSED_SETTLED

Tab 2: Timeline

Chronological audit trail of all case events. Events are categorized: - ☐ Case Created - ☐ Status Changed - ☐ Lawyer Assigned - ☐ Hearing Scheduled - ☐ Document Filed - ☐ Task Completed - ☐ Note Added

Add new timeline entries with the **Add Event** button.

Tab 3: Documents

Lists all documents linked to this case. Actions: - Upload existing document - Generate from template (opens Template Selector) - View/download document - Update document status (DRAFT → REVIEW → APPROVED → FILED) - Initiate e-Notarization for applicable documents

Tab 4: Tasks

Task management for case to-dos: - Create tasks with due dates and assignees - Mark tasks complete - Filter by status (Pending / Completed) - Priority indicators

Tab 5: Lawyer Assignment

- View currently assigned lawyer
- Reassign to another lawyer
- View lawyer's current caseload
- Assignment history

5.4 Philippine Legal Terminology

The platform uses correct Philippine legal terminology throughout: - **Reglementary Period** — Prescribed time to file pleadings (not "statute of limitations") - **Court Docket** — Official court record number (not "case number" generically) - **Cause of Action** — Legal basis for the claim - **Relief Sought** — Specific remedy requested from the court - **PAO** — Public Attorney's Office (legal aid) - **IBP** — Integrated Bar of the Philippines

6. Document Management

6.1 Document List

Documents → Lists all firm documents with filtering by type, status, case, and date.

6.2 Uploading Documents

Click **Upload Document**: 1. Select file (PDF, DOCX, DOC supported; max 10MB) 2. Enter document title 3. Select document type (Complaint, Answer, Motion, Affidavit, etc.) 4. Link to a case (optional) 5. Click Upload

6.3 Document Templates

The platform includes 12 pre-built Philippine legal document templates:

Template	Category	Applicable Cases
Verified Complaint	Pleading	Civil, Labor
Answer with Counterclaim	Pleading	Civil, Commercial
Motion to Dismiss	Motion	Civil, Criminal
Judicial Affidavit	Affidavit	Civil, Criminal, Labor
Position Paper	Pleading	Labor
Memorandum on Appeal	Appeal	Civil, Criminal, Labor
Petition for Certiorari	Petition	Administrative
Demand Letter	Letter	Civil, Commercial, Labor
Compromise Agreement	Contract	Civil, Labor

Template	Category	Applicable Cases
Deed of Absolute Sale	Deed	Civil, Commercial
Special Power of Attorney	Authorization	Civil, Commercial
Affidavit-Complaint	Affidavit	Criminal

6.4 Generating a Document from Template

1. Click **Generate Document** (from Documents or Case Detail → Documents tab)
2. Select a template from the list
3. Fill in the variable fields (party names, dates, amounts, court details)
4. Preview the generated document
5. Click **Generate PDF** — downloads a print-ready PDF
6. The generated document is automatically saved and linked to the case

6.5 Document Status Workflow

DRAFT → REVIEW → APPROVED → FILED → SERVED → ARCHIVED

Update status from the document detail page or case documents tab.

7. e-Notarization

7.1 Overview

The e-Notarization module implements a 4-step electronic notarization workflow compliant with: - **RA 8792** — Electronic Commerce Act - **A.M. No. 19-10-20-SC** — Supreme Court Rules on Electronic Notarization

7.2 Step 1 — Document Selection

Select the document to be notarized: - Choose from existing documents in the system
- Or upload a new document directly - Supported formats: PDF (preferred), DOCX

Verify that the document is complete and in final form before proceeding.

7.3 Step 2 — Identity Verification

The signatory must complete identity verification: - **Government ID verification** — Upload a valid government-issued ID (PhilSys, Passport, Driver's License, Voter's ID) -

Selfie with ID — Live photo matching against the uploaded ID - **OTP verification** — One-time password sent to registered mobile number

In demo mode, identity verification is simulated. In production, integrate with PhilSys eKYC API.

7.4 Step 3 — Notarial Act

The commissioned Notary Public: - Reviews the document and signatory identity - Enters notarial details: - Notary's Full Name and IBP Roll Number - PTR (Professional Tax Receipt) Number - MCLE Compliance Number - Doc Stamp Serial Number - Applies digital seal (cryptographic signature) - Records the act in the Notarial Register

7.5 Step 4 — Certificate of Notarization

Upon successful notarization: - **Certificate Number** is generated (format: NOT-YYYY-XXXXXXX) - **Digital seal** is embedded in the document - **Verification QR code** is appended to the last page — scan with any QR reader to reach the verification portal - **SHA-256 integrity hash** is recorded for tamper detection - Certificate is available for download (PDF format)

The QR code displayed on the certificate links to the platform's verification URL for that certificate number, enabling any third party to confirm authenticity without contacting the firm.

7.6 Verification

Any party can verify a notarized document: - Scan the QR code on the document, or - Visit the verification URL and enter the certificate number

8. Contract Agent

The Contract Agent is an AI-powered module for uploading, analyzing, and managing contracts under Philippine law.

8.1 Contract List

Contract Agent → Lists all uploaded contracts with: - Title, type, parties - Risk score gauge (0–100) - Status (Uploaded, Analyzing, Analyzed, Under Review, Signed, etc.) - Upload date

8.2 Uploading a Contract

Click **Upload Contract** (or **New Contract**): 1. Drag and drop or select the contract file (PDF or DOCX, max 20MB) 2. Enter contract title 3. Select contract type (NDA, Service Agreement, Employment Contract, etc.) 4. Enter Party A and Party B names 5. Enter contract value (optional, in PHP) 6. Set execution and expiration dates (optional) 7. Click **Upload and Analyze**

The system will trigger automatic AI analysis. Status changes to **ANALYZING** then **ANALYZED**.

8.3 AI Analysis Results

The analysis page for each contract displays:

Risk Gauge

Visual circular gauge showing the overall risk score (0–100). The gauge **animates** on load — the arc sweeps from zero to the final score over 1 second, making the risk level immediately apparent: - **0–30** Green — Low Risk - **31–60** Yellow — Medium Risk - **61–80** Orange — High Risk - **81–100** Red — Critical Risk

Key Clauses

Extracted and categorized clauses with individual risk ratings: - Payment terms - Termination provisions - Liability and indemnification - Jurisdiction and governing law - Force majeure - Confidentiality obligations - Intellectual property rights - Dispute resolution mechanism

Risk Factors

List of identified risks with: - Severity (Critical / High / Medium / Low) - Description of the risk - Recommended mitigation

Compliance Flags

Philippine law compliance check against: - **RA 10173** (Data Privacy Act) — Data handling provisions - **Civil Code** — Contract formation requirements (Art. 1305–1422) - **Labor Code** — Employment contract mandatory terms - **RA 8792** — Electronic commerce provisions

Suggestions

Actionable recommendations to improve the contract, ranked by priority.

SC Compliance Badge

Indicates whether the contract structure complies with Supreme Court e-document standards.

8.4 Contract Chat (AI Agent)

Each analyzed contract has a chat interface for natural language queries:

Example queries: - "What are my termination obligations under this contract?" - "Is the liability cap enforceable under Philippine law?" - "Summarize the payment schedule." - "What clauses protect my intellectual property?" - "Identify any provisions that violate the Data Privacy Act."

The AI agent responds with clause-level references and legal analysis. All responses are mock/simulated in demo mode.

To use: 1. Open any analyzed contract 2. Click the **Chat with Agent** tab 3. Type your question and press Enter 4. View the AI response with relevant clause citations

8.5 Contract Templates

Contract Agent → **Templates** tab → Browse and generate from pre-built templates:

Available templates: - NDA (Non-Disclosure Agreement) - Retainer Agreement (Legal Services) - Service Agreement (IT / Professional Services) - Employment Contract (Regular / Project-based) - Lease Agreement (Commercial / Residential) - Deed of Absolute Sale - Memorandum of Agreement - Special Power of Attorney

To generate: 1. Select a template 2. Fill in the required variables (party names, amounts, dates, terms) 3. Preview the rendered contract 4. Download as PDF or save to the contract library

8.6 Linking Contracts to Cases

From the contract detail page, click **Link to Case** to associate a contract with a specific legal case. This makes the contract accessible from the Case Detail → Documents tab.

9. Analytics & Reports

9.1 Overview

Analytics → Displays firm-wide performance metrics with interactive charts.

9.2 KPI Cards

Metric	Description
Total Cases (YTD)	All cases created this year
Active Cases	Currently in progress
Win Rate	% of closed cases decided favorably
Avg. Case Duration	Average days from filing to closure
Documents Filed	Total documents filed with courts
Contracts Reviewed	Contracts analyzed by the Contract Agent

9.3 Charts

Case Volume by Month (Bar Chart) - Monthly breakdown of new cases filed - Color-coded by case type

Case Types Distribution (Pie Chart) - Proportional breakdown by Civil, Criminal, Labor, etc.

Case Status Flow (Bar Chart) - Count of cases at each status stage

Lawyer Performance (Bar Chart) - Cases handled, win rate, and average duration per lawyer

Revenue/Billing Trend (Line Chart) - Monthly billing data (if billing module is enabled)

9.4 Filtering

All charts respond to global filters: - Date range (custom or preset: This Month, Last Quarter, This Year) - Lawyer filter - Case type filter

9.5 Exporting Reports

Click **Export** on any chart to download: - PNG image for presentations - CSV data for further analysis

9.6 Print / PDF Export

The Analytics page includes **print-optimized CSS**. To export the full analytics view as a PDF:

1. Open the Analytics page
2. Press **Ctrl+P** (Windows/Linux) or **Cmd+P** (macOS)
3. In the print dialog, select **Save as PDF** as the destination
4. Click **Save**

The print stylesheet hides navigation elements and formats charts for clean A4 output.

10. Client Portal

10.1 Overview

The Client Portal provides a dedicated view for clients to monitor their active cases without access to the full attorney-side interface.

Access this view by logging in with the **Pedro Garcia (Client)** demo account, or navigate to **Client Portal** in the sidebar.

10.2 Client Dashboard

Displays for the logged-in client: - **Active Cases** — List of all cases where the client is the principal party - **Case Status** — Current status with plain-language explanation - **Upcoming Hearings** — Scheduled court dates - **Documents** — Documents filed in the client's case (view/download only) - **Messages** — Communication thread with assigned lawyer

10.3 Case Cards

Each case card shows: - Case title and case number - Case type and current status - Assigned attorney name - Next hearing date - Recent timeline update

10.4 Document Access

Clients can view documents in the **FILED** or **SERVED** status. Draft and internal documents are not visible to clients.

10.5 Privacy

Client data is governed by RA 10173. The platform implements: - Role-based access control (clients cannot see other clients' data) - Audit logs for all data access - Data minimization (clients see only their own case data)

11. Notifications

11.1 Notification Center

Click the **bell icon** in the top navigation bar to open the Notification Panel.

11.2 Notification Types

Type	Trigger
Case Assigned	A new case has been assigned to you
Case Status Changed	A case you're handling changed status
Deadline Reminder	A reglementary deadline is approaching
Hearing Scheduled	A new court date has been set
Document Filed	A document has been filed in your case
Document Approved	A document you submitted has been approved
Contract Analyzed	Contract analysis is complete
Contract Expiring	A contract expiration date is approaching
Task Due	A task assigned to you is due
System Alert	Platform maintenance or security alerts

11.3 Managing Notifications

- **Mark as Read** — Click a notification or the "Mark read" action

- **Mark All Read** — Clear all unread indicators at once
 - **Filter** — Filter by notification type or read/unread status
 - **Notification Settings** — Configure which notification types to receive (Settings → Notifications)
-

12. Settings

12.1 User Profile

Update display name, email address, and profile photo.

For lawyers: Update Bar Admission Number and specializations.

12.2 Notification Preferences

Configure which notifications to receive and through which channels (in-app, email — email requires SMTP configuration in production).

12.3 Theme Preference

Click the **sun/moon icon** in the top navigation bar to toggle between: - **Light Mode** — Default white/slate theme - **Dark Mode** — Dark navy/slate theme

Note: The System theme option (which previously followed OS preference) has been removed. The platform now supports Light and Dark modes only.

12.4 Demo Account Switcher

Switch the active demo account without logging out. Available accounts: - Atty. Maria Santos (Admin) - Atty. Juan dela Cruz (Lawyer) - Ana Reyes (Paralegal) - Pedro Garcia (Client)

12.5 System Information

Displays: - Platform version: **v1.0.0 Demo Build** - Database status - Environment (development / production) - Compliance certifications in effect

13. Frequently Asked Questions

Q: Is the platform compliant with the Data Privacy Act (RA 10173)?

A: Yes. The platform is designed with RA 10173 compliance as a baseline requirement. Data minimization, consent management, access controls, and audit logging are built in. For production deployment, a full Privacy Impact Assessment (PIA) must be conducted and a Privacy Management Program established.

Q: Can the platform be used for actual court filings?

A: This is a demo platform. For production use, the e-filing integration must be connected to the official eFiling portal of the Supreme Court of the Philippines (eFOI / eCourt). All AI analyses are simulated.

Q: Is the AI Contract Analysis legally binding?

A: No. AI analysis is a decision-support tool only. All legal conclusions must be reviewed and validated by a licensed member of the Philippine Bar. The Contract Agent does not constitute legal advice.

Q: How are deadlines computed?

A: Deadlines follow the Rules of Court (reglementary periods) and the Revised Penal Code (prescription). The system uses Philippine time (UTC+8) for all date computations.

Q: What happens if no database is connected?

A: The platform will fall back to mock data for all pages. API routes return seeded demo data to ensure the full UI is demonstrable without a live database.

Q: Is there a mobile app?

A: The web application is mobile-responsive and functions on smartphones and tablets. A dedicated native mobile app is on the product roadmap.

Q: How do I reset the demo data?

A: Run `npm run db:reset` followed by `npm run db:seed` to restore the database to its initial demo state.

Q: How do I switch between Light and Dark mode?

A: Click the sun/moon icon in the top navigation bar. The platform supports Light and Dark modes. Your preference is stored locally in the browser.

Q: Can I export the analytics as a PDF?

A: Yes. Open the Analytics page and press Ctrl+P (or Cmd+P on macOS). Select "Save as PDF" in the print dialog. The page is formatted with print-optimized CSS for clean output.
